

HADRONIC SHOWER SIMULATION WORKSHOP

September 6 – 8, 2006

Fermi National Accelerator Laboratory
Batavia, Illinois

The workshop will bring together world experts in the field of hadronic shower development and establish a collaborative effort that will lead to a better understanding of hadronic cascades for hadron calorimetry for the ILC and LHC, neutrino fluxes and atmospheric showers. The workshop will evaluate existing event generator and transport codes. We will benchmark codes before the workshop. The workshop will identify the shortcomings of existing hadronic shower simulations and investigate the need to acquire new data to improve shower models.

International Organizing Committee

J. Apostolakis (CERN, Chair)
S. Dytman (U. Pittsburgh)
A. Ferrari (CERN)
A. Heikkinen (Helsinki Institute of Physics)
P. Loch (U. Arizona)
S. Mashnik (LANL)
G. McKinney (LANL)
M. Messier (Indiana U.)
N. Mokhov (Fermilab)
K. Niita (RIST)
A. Ribon (CERN)
M. Thomson (Cambridge U.)
R. Wigmans (Texas Tech)
D. Wright (SLAC)

Local Organizing Committee

M. Albrow (Fermilab)
D. Chakraborty (Northern Illinois U.)
M. Demarteau (Fermilab)
D. Elvira (Fermilab)
J. Link (Virginia Tech.)
S. Magill (ANL)
A. Para (Fermilab)
R. Raja (Fermilab, Chair)
C. Sazama (Fermilab)
